

CPRW: NANT MITHIL (BUTE'S RADNOR FOREST WIND ENERGY PARK)

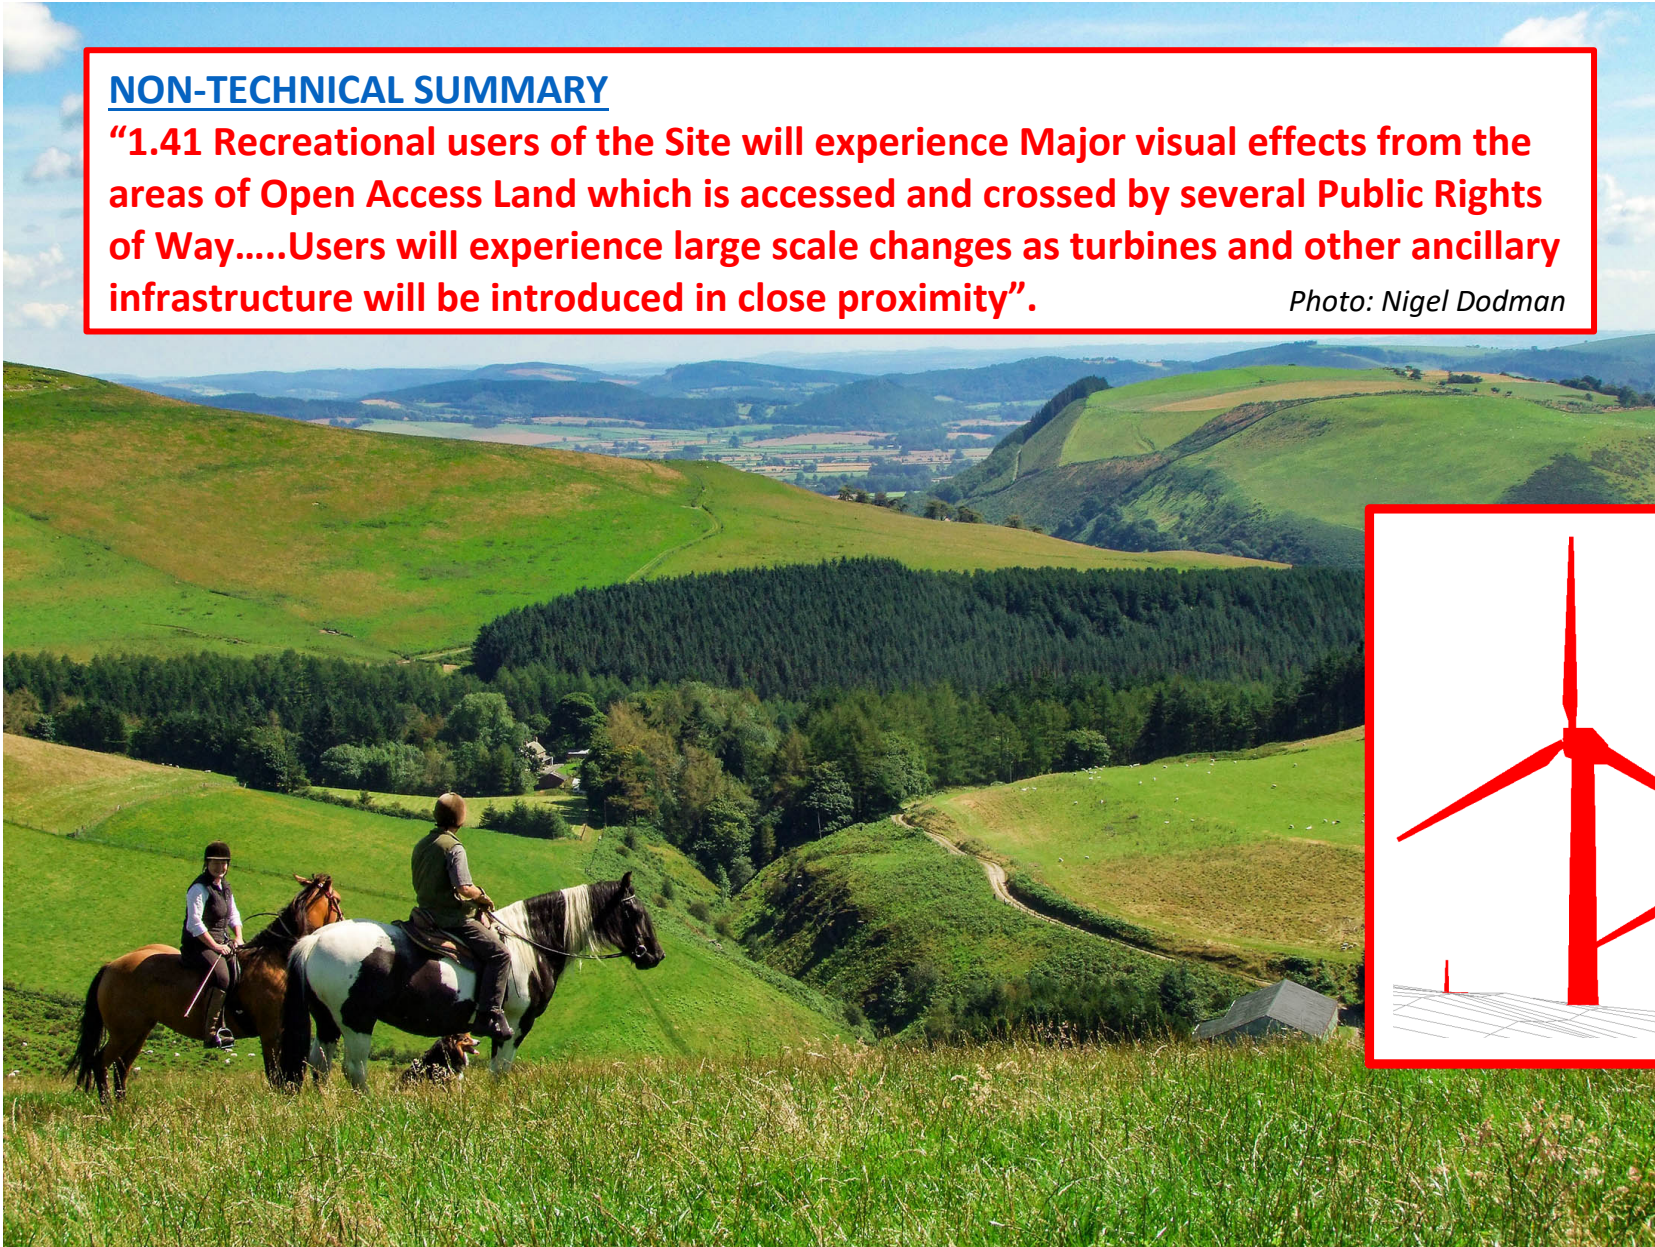

your **DAILY DOSE** no 20

Public Rights of Way

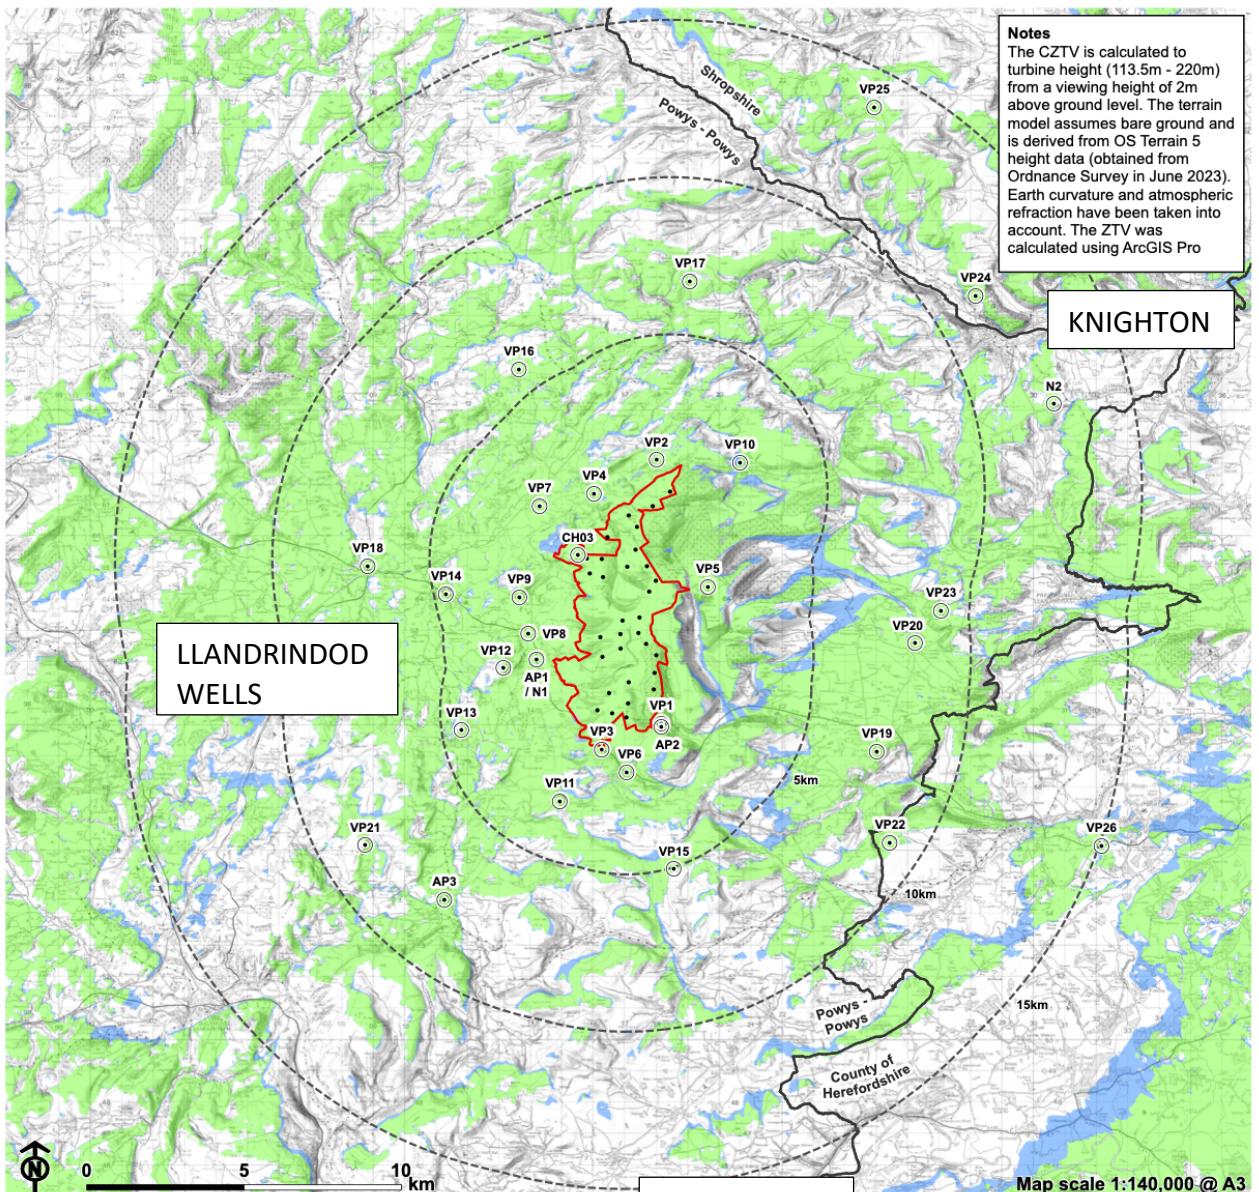

NON-TECHNICAL SUMMARY

“1.41 Recreational users of the Site will experience Major visual effects from the areas of Open Access Land which is accessed and crossed by several Public Rights of Way.....Users will experience large scale changes as turbines and other ancillary infrastructure will be introduced in close proximity”.

Photo: Nigel Dodman

Notes
 The CZTV is calculated to turbine height (113.5m - 220m) from a viewing height of 2m above ground level. The terrain model assumes bare ground and is derived from OS Terrain 5 height data (obtained from Ordnance Survey in June 2023). Earth curvature and atmospheric refraction have been taken into account. The ZTV was calculated using ArcGIS Pro
