

HIDDEN EXTRAS [Look for all Daily Doses on CPRW website. Stop Nant Mithil Wind Farm](#)

Notes:

- 1) One turbine blade of T1>6 and T21>T24 to be painted **black**

[see small print on Residential Visual Amenity views](#)

CPRW have searched high and low in Project Description, Landscape Assessment and Ecology Chapters for mention of **black blades** but all we have so far found is.....

Appendix 8.2

3. Collision Risk Modelling says:

In addition in order to account for the mitigation (a single painted blade), collision risk values were calculated for each species at the 10 selected turbines, the locations (Mitigation Area A and Mitigation Area B) of which are shown in **Chapter 8** of the ES: **Figure 8.4.**
